

## **Clear Recovery up to 80% of Your Declined Recurring Payments**

### **First, Fast, and Free**

*NSF ClearingHouse is the Clearinghouse for Declined Payment Recovery*

**When a business receives declined payments, they are a costly negative until they finally clear.**

In the traditional mode of calling the customer to fix the declined payment, some customers will cancel on the call (about 1 out of 7). Using a Collection Agency, the customer is likely lost forever, and the collection Agency keeps up to 50% of the collected funds. Not only do you lose a customer, but you pay for the loss, too. Then a new expense to replace the lost customer. Sales and boarding are very expensive.

Before you attempt to clear your NSF declines...use NSF ClearingHouse to clear recover and deposit at no cost.

**NSF ClearingHouse (NSFCH) provides the first free Clear Recovery Solution. Unfortunately, returned NSF or declined payments are normal. Costly collections are eliminated by clear recovery using NSFCH.**
